

“N B S Easy INSTALL WPC DECKING”

Decking board top side (wood grain finish)

New bridge services is a leader in temporary fences and fence related / industrial application materials, with its view on a sustainable future for our planet we are proud to launch our range N B S EASY INSTALL WPC fence PANELS and “N B S Easy INSTALL WPC DECKING” we are sure that it will eventually replace the conventional timber used for decking and wood palling fence which are used as fence Neighbour boundary partitions/ fences .

Decking board bottom side (wood grain finish)

What is “EASY INSTALL N B S WPC”?

WPC (Wood plastic composite) material is made of Wood Fibre, Plastic and Few of chemical additives:

- Wood cellulose - **EASY INSTALL WPC** uses pine wood powder.
- Plastic - **EASY INSTALL WPC** adopts the plastic material containing both new and reclaimed HDPE (high-density polyethylene) as per the strict ratio. Other plastic material (like PPPolypropylene, PVC-Polyvinyl chloride etc.) can replace PE on clients special demands.
- Chemical additives (Couplant) - Like colorants, coupling agents, stabilizers, blowing agents, reinforcing agents, foaming agents and lubricants make wood and plastic compounded perfectly.

Wood Composite Plastic is high performance fibre composite derived from a revolutionary green technology. The core fibre composite technology, developed and refined through the years, promises to ease pressures on our forests by delivering an optimum and viable timber free alternative acceptable for mass applications and integration with industry.

“N B S Easy INSTALL WPC DECKING”

(N B S Easy decking series)

Item	Dimensions	Colour
Decking panel	5500mm long x 136mm wide x 23mm thick (0.748 M2)	Mahogany, Grey, Teak
