

Welded mesh

Product Description

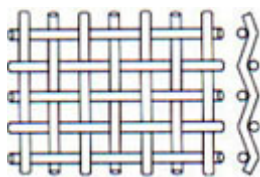

New Bridge can manufacture welded wire mesh by roll and by sheets. Our products galvanized welded wire mesh, PVC coated welded mesh, welded panel, and stainless steel welded mesh. We manufacture custom made sheet sizes as per your requirement; with specific sizes from infill to sheep yard mesh we do it all. All you have to do is specify the size of the sheet the material and its thickness and we manufacture it for you.

normally our products used for making poultry houses, egg baskets, runway enclosures, draining racks, porch guards, rat- proofing, safety guards on machinery, animal and plant pens and shelves, etc. welded Wire Mesh Varieties

available: Electro Galvanized, hot dipped, Stainless Steel and PVC-coated.

Square Wire Mesh

Square Wire Mesh

Product Description »

New Bridge offer stainless steel wire mesh and stainless steel wire cloth made of stainless steel wire 304, 304L, 316 or 316L.

Stainless steel wire mesh and stainless steel wire cloth application: Used as filters in the petroleum, chemical industry, environmental protection, mine, airspace, paper-making, electronic, metallurgy and other fields.

Woven type available:

Stainless steel wire mesh, plain weave

Stainless steel wire mesh, twill weave

Stainless steel wire cloth, plain Dutch weave

Stainless steel wire cloth, twill Dutch weave

Product Description »

New bridge. mainly offer products and services as below: Series stainless steel products including stainless steel wire mesh square woven, Dutch woven wire cloth, welded stainless steel mesh, hexagonal wire netting in stainless steel, stainless steel crimped wire mesh, stainless steel filter mesh, stainless steel screen for mine and other applications;

Iron wire mesh series including galvanized iron square wire mesh, hot-dipped galvanized welded iron wire mesh, electro galvanized welded iron wire mesh. PVC coated welded wire mesh, chain link fence, wire mesh fencing, razor wire mesh and barbed wire fences; Wire series products including stainless steel wire, annealed wire, electro galvanized iron wire, hot-dipped galvanized iron wire, cut wire, baling wire, etc.;

Liquid & Gas Filter Mesh

Liquid&Gas Filter Mesh

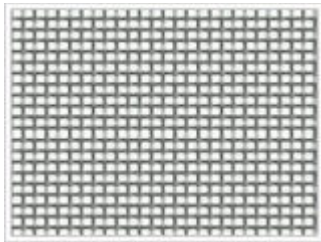

Product Description »

Wire Materials: Stainless steel wire, copper wire, galvanized iron wire, polyamide fibre or F46 wire.

Process: Crochet weaving.

General Use: Filter mesh for gas and liquid serves well in filtering and deleting the particle mixture in foam, liquid and air, by way of distillation, absorbing, evaporating and filtering process, in petroleum, chemicals, metallurgy, machine, pharmaceuticals, automobile and environmental protection.
