

## **NBS 2400 SERIES "CLASS B" TEMPORARY FENCE PANELS:**

**NBS are proud to launch our economical priced panels with a big difference in quality and price:**

NBS 2400 Series Class' B' Temporary Fence Panels

### Specifications:

Width: 2400mm

Height: 2100mm

Mesh infill: 60mm wide x 150mm high

Wire thickness: 4mm horizontal x 4mm Vertical.

Wire spec: HDG 28microns +

Pipe specifications: 32OD X 2.2MM THICK: FINISH: HDG 42microns +

Weight per panel: 25kg

❖ Pipe thickness: 2.20mm thick (unlike the ones which are sold in our market which are actually 1.72mm-1.8mm thick and advertised as 2mm thick)

- ❖ Pipe welds: all the four ends are squashed and welded all around; we use epoxy paint on all our welds to safe guard against rust ,with a coat of gal paint to make it aesthetic
- ❖ Our infill mesh that is attached to the frame has a 5mm long weld on each and every vertical wire and a 5mm long weld on every second horizontal wire. On both sides of the frame **(unlike the ones which are sold in our market have a spot button weld at every third wire horizontally )**
- Big discounts on Container loads(1x40ftloads 673panels)
- Retail sales available, Please ask for the month's promotion on +61437911195
